## ORDERING CUSTOM REACH-IN DOORS

### CUSTOM-MADE REPLACEMENT REACH-IN DOORS

Facemount style hinge    Pivot style hinge    Edgemount style hinge

Overlap or Slab style door

Infit style door

- We build your door with edgemount, facemount or pivot style hardware (hardware extra, as it is not included)
- All custom-made doors include door gaskets – magnetic or compression style – without additional charge

### How to Measure for Custom Door Size

- 1) Measure width across door face
- 2) Measure height of door face
- 3) Using width & height measurements from steps 1 & 2, add the two numbers as shown below for a total (round up any fractions to next-highest number). Use the total number to select from the 'Door Size' column in the chart to the right.

**EXAMPLE**

DOOR WIDTH: 22"  
DOOR HEIGHT: 44-1/2"

TOTAL: \* 66-1/2" = 67"

\* Round off all fractions to the next highest number.

- 4) Select order number based on the size and style of door that is desired.

### Reach-In Doors – Made to Order

Order No. Overlap/Slab Type	Order No. Infit Type	Door Size (Width + Height)
92-100	92-300	25" to 28"
